

# ARTEM DOROSHKO

## Senior Adobe Commerce / Magento 2 Frontend Engineer

Hyvä / Hyva | Alpine.js | Tailwind CSS | Compatibility Modules | Performance | Accessibility | Frontend Tech Lead

Freiberg, Saxony, Germany | Open to full-time onsite, hybrid, or remote roles in Germany

Email: artemdoroshko555@gmail.com | Portfolio: artem-doroshko.dev | LinkedIn: linkedin.com/in/artem-doroshko | GitHub: github.com/FrankieSR

## PROFESSIONAL SUMMARY

Senior Adobe Commerce / Magento 2 Frontend Engineer with 7+ years of commercial experience building and maintaining e-commerce storefronts across fashion, retail, pharmacy, building materials, and consumer goods sectors, including Magento 2, Adobe Commerce, Hyvä, and ScandiPWA projects.

Strong focus on Hyvä storefront development, Hyvä compatibility modules, Alpine.js, Tailwind CSS, Magento frontend architecture, Core Web Vitals, accessibility, and responsive e-commerce UI.

Experienced in frontend tech lead ownership, estimation, task decomposition, code review, mentoring, release support, and backend-facing Magento work.

Worked in long-term collaboration with Germany-based Magento / Hyvä ecosystem clients, contributing to storefront development, Hyvä compatibility solutions, and cross-functional delivery within international teams.

## PROFESSIONAL EXPERIENCE

### Senior Adobe Commerce / Magento 2 Hyvä Frontend Developer

IT Delight | May 2024 - Present | Remote

- Develop and maintain Adobe Commerce / Magento 2 storefronts using Hyvä, Alpine.js, Tailwind CSS, GraphQL, XML layouts, PHTML, Knockout.js, RequireJS, jQuery, and LESS.
- Created Hyvä compatibility frontends from scratch for Magento 2 extension modules, including new UI implementation, improvements, bug fixing, optimization, and WCAG-oriented accessibility enhancements.
- Worked on Hyvä compatibility modules for a well-known Magento extension vendor, adapting Magento functionality for modern Hyvä storefront architecture.
- Performed backend-facing Magento tasks, including custom module adjustments, layout XML updates, PHTML/PHP template changes, GraphQL integration, module configuration, debugging, and frontend/backend integration support.
- Worked for 1+ year with a Germany-based Magento / Hyvä ecosystem company that contributed to the Hyvä ecosystem, supporting long-term storefront and compatibility module development.
- Built storefront features with attention to Core Web Vitals, semantic markup, responsive UX, keyboard-friendly interactions, and WCAG-oriented frontend patterns.

## Adobe Commerce / Magento 2 Frontend Developer / Frontend Tech Lead

Overdose | Oct 2019 - Apr 2024 | Remote / Office

- Contributed to the development, launch, and long-term support of 5+ Magento 2 e-commerce storefronts for international fashion, retail, and regional commerce brands.
- Acted as Frontend Tech Lead on 3+ Magento 2 projects, owning design analysis, frontend estimation, task decomposition, implementation planning, code review, and task allocation.
- Built and maintained Magento 2 storefront features using XML layouts, PHTML, Knockout.js, RequireJS, jQuery, LESS, GraphQL, and PHP templates.
- Collaborated with backend tech leads to plan complex storefront features, align frontend/backend implementation scope, review architecture decisions, and support release delivery.
- Implemented responsive, SEO-conscious, performance-minded, and accessibility-aware storefront components for fashion and retail e-commerce projects.
- Developed a Magento-backed ScandiPWA storefront for Arabic markets using React, GraphQL, Sass, and Magento as the backend platform.
- Supported short-term Shopify and Vue/Nuxt assignments, building frontend components and logic with TypeScript, GraphQL, Vue, Nuxt 3, and Tailwind CSS.

## Magento Frontend Developer

NDA / Absolute Web | Apr 2018 - Oct 2019 | On-site

- Delivered Magento 2 frontend development, support, bug fixing, and feature implementation for client e-commerce projects.
- Built and maintained Magento 2 storefront features using XML layouts, PHTML, HTML, CSS, JavaScript, jQuery, LESS, and Magento frontend tooling.
- Built an internal training portal for Magento developers using Vue, Vuex, and Sass.

## SELECTED PROJECTS

---

### Magento 2 E-commerce Storefronts - Frontend Developer / Frontend Tech Lead

Contributed to the development, launch, and ongoing support of 6+ large-scale Magento 2 e-commerce projects from initial implementation through production release and long-term maintenance. Participated in storefront architecture planning, frontend implementation, feature delivery, release preparation, and post-launch support for international fashion, retail, and commerce brands.

### Karl Lagerfeld Paris - Magento 2 / Frontend Tech Lead

Led frontend delivery across 5+ stores, including estimation, task breakdown, team coordination, Magento 2 implementation, and release support.

### DKNY - Magento 2 Frontend Developer

Implemented Magento 2 frontend features for a high-visibility fashion e-commerce storefront with focus on maintainable components and responsive UI.

### Hyvä Compatibility Modules - Magento Extension Vendor

Built Hyvä frontends from scratch, improved existing module UIs, fixed storefront issues, optimized implementation quality, and added WCAG-oriented accessibility improvements.

### ScandiPWA / React Storefront - Arabic Market

Developed a Magento-backed ScandiPWA storefront using React, GraphQL, Sass, and Magento as the backend platform. In addition to core frontend development tasks, worked on Google Maps API integration, implemented custom delivery and checkout-related logic, and developed right-to-left (RTL) compatible UI components and storefront functionality for Arabic-speaking users.

### Generate Wealth - Vue.js / Nuxt.js Platform

Contributed to the development of a financial services platform focused on wealth-building and investment education. Built and maintained frontend functionality using Vue.js, Nuxt.js, TypeScript, GraphQL, and Tailwind CSS, implementing responsive user interfaces, reusable components, and client-facing features with a strong focus on usability and performance.
